infinite  
shelf life

# STONEWALL KITCHEN

Stonewall Kitchen knows a thing or two about sourcing the perfect ingredients for their award-winning products but needed to implement a software solution that could grow with their small food empire.

## Challenge:

Stonewall Kitchen struggled to see a full view of inventory, product lead time and customer data from their disparate, piecemeal systems.

## Solution:

Through the implementation of Columbus Food, Stonewall Kitchen has grown over 400%, expanding into a small food empire, integrated with a catalog ordering system, gift card program, nine brick and mortar stores, a cafe and cooking school. The increased productivity, improved cross-division communication and customer service continues to steadily grow, allowing Stonewall Kitchen to focus on their energy on their brand excellence and growth in the market.
